

Well-Lit

LIGHTING

Well-Lit LED LIGHTING brings you a distinctive, Energy efficient, Money saving, long life, Eye catching LED Lighting technologies, can create dynamic day color effect with minimal light spillage. The technology provides sustainable lighting solutions that reduces energy costs, and environmental impact on our Planet by reducing CO2 Emissions.

- ▶ LED technology for high energy-efficient
- ▶ LED technology for consistent light output
- ▶ Low maintenance costs
- ▶ Long life up to 50,000 working hours
- ▶ Low Mean time between failures
- ▶ Manufactured indigenously & easily serviceable
- ▶ No compromise on light quality
- ▶ Short payback time
- ▶ Free from UV Rays
- ▶ Uniform light distribution

OFFICE LIGHTING:

Smart and efficient can help to define your company's image and entity. Our lighting solutions are designed to inspire Office lighting, provides sustainable lighting solutions that reduce energy costs.

Range – 6w,9w,12w,15w,18w, 24w.

SURFACE MOUNT LIGHTING :

Smart and Elegant Fixtures with uniform lighting focus only on walking area without much light spillage.

Range – 6w,12w,18w,24w.

STREET LIGHTING:

Representing the latest Innovation in LED technology for street lighting with precision light placement, The specially designed driver ensures long LED lifespan, energy efficient & with self-protection function from heat & high voltages. As the fixture is made of pure aluminium, which enables perfect heat dissipation, Corrosion free, light weight.

Range – 12w,15w,30w,60w,90w.

TUBE LIGHTS

Perfect replacement for T8 Tubes & CFL bulbs, where 75% of the power can be saved thus reducing the power bill with better Illumination spread over the area, high reliability with 10 years Life Span.

Range Tubes - 6w, 10w, 20w.

SOLAR STREET LIGHTS

Lighting completely independent from utility power, The unlimited natural sun energy from sun converted in to Electrical energy and delivers efficient, reliable light over a radius of 30 feet.

BAY LIGHTS

COB LIGHTS
